ROGER WATERS' AMUSED TO DEATH

**AVAILABLE ON:
200-Gram Double LP / 5.1 Surround Hybrid Multichannel SACD**

**Also Available on DSD (Single Rate) 2.8MHz/64fs Download / FLAC 192kHz/24bit Download
FLAC 96kHz/24bit Download / Blu-ray Audio / Blu-Ray Audio + CD / CD / Picture Disc**

An unblinking look at an entertainment-obsessed society, *Amused to Death* addresses issues that have only grown in complexity and urgency over the past two decades. With *Amused to Death*, Roger Waters sounded the alarm about a society increasingly – and unthinkingly – in thrall to its television screens. Twenty-three years later, *Amused to Death* speaks to our present moment in ways that could scarcely have been anticipated two decades ago. In 2015, television is just one option in an endless array of distractions available to us anytime, anywhere, courtesy of our laptops, tablets and smartphones. With eyes glued to our screens, the dilemmas and injustices of the real world can easily recede from view.

The 2015 SACD edition of *Amused to Death* features a new 5.1 surround remix of the album completed by longtime Roger Waters / Pink Floyd collaborator and co-producer, James Guthrie. The art has been updated for 2015 by Sean Evans, the creative director of Waters' 2010-2013 "The Wall Live" tour and movie.

Dear Customer,

Seems the last several of these letters have included some mention of our company's growth. We've talked about our location moves to accommodate a growing inventory and staff; the start of our pressing plant, Quality Record Pressings; the launch of Super HiRez, our download service, and more - all within the past few years.

Well, there's more – a good amount more. Our writer David Clouston breaks it down for you on page 2. Learn about our new printing press and about our purchase of Doug Sax's world-class mastering facility, The Mastering Lab. Together, these two moves make us the only truly vertically integrated company in the industry. Then there's the growth of Quality Record Pressings. We're now running three shifts in a desperate attempt to keep up with the world's demand for more vinyl. And in February, we acquired 13 additional presses – an incredible find! We'll have a number of those restored and up and running soon to allow for a huge increase to our capacity.

Bottom line is this: We're growing and it's because of you. We recognize that, and I want to personally thank you for it. More and more of you seem to love vinyl or hi-res downloads or SACDs or the great equipment available to play and hear it all. We're doing our best to keep up. Growth certainly isn't easy, but like they say, it sure beats the alternative. Thank you sincerely.

So, just a few highlights from the following pages:

- It's rare that a company like SME introduces a new product, and when they do it's cause for considerable excitement. Such is the case with the new SME Model 15. Check it out on page 96.

- Our Super HiRez download service continues to flourish with more great products to go with the growing catalog of titles. Recent equipment additions include headphones from Mr. Speaker (page 115) and some very cool and affordable Digital Audio Players from Que-style (page 89).

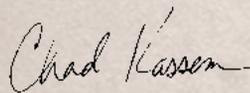

- Roger Waters' remastered and reissued solo effort *Amused To Death* is here, in multiple formats, including 200-gram QRP-pressed vinyl reissued by Analogue Productions. Rave customer and media reviews are coming in regularly. Find it on page 29.

- We've got two new Analogue Productions series announced here. One series includes nine Decca classics on SACD while the other is comprised of 12 RCA/Decca titles on both 33 1/3 LP and SACD. Classical music fans rejoice! Learn more on page 4.

- Lots of other new stuff from Analogue Productions – Nils Lofgren/Acoustic Live (page 27), Bruno Walter/Beethoven: *Symphony No. 6* (page 19), Gregg Allman/Laid Back (page 26), more from The Beach Boys (page 24), a new compilation of what I think are the best and best-sounding Christmas songs (page 14) and much, much more.

As usual, there are all kinds of good things to find in here. I always want to remind you that this is only a fraction of what we've got to offer. This catalog contains just the latest things to come out. To truly understand the breadth of our offerings, you've got to go to www.acousticsounds.com.

Happy Holidays to you all, and thank you for your continued business.

RECORDING, PLATING, PRESSING, PRINTING, DISTRIBUTION
AND SOON MASTERING — IT'S ALL HAPPENING AT

Acoustic Sounds!

There's a smell of ink in the air and a pulsating whirring sound emanating from a warehouse on Salina's northwest side. Inside, an offset printing press is churning out sheet after sheet of colorful record labels.

We're not felling logs and opening our own paper mill, but as Acoustic Sounds' acquisition of its own offset printing press shows, we're moving more work in-house to bring you the finest-sounding, best-looking vinyl records on the planet.

In short, Acoustic Sounds — through its graphic design department, *Quality Record Pressings* division, *Blue Heaven Studios* and now *Acoustic Sounds Printing*, and soon-to-come new LP mastering facility — has achieved a position unmatched in the music industry: a soon-to-be lone turnkey source for recording, mastering, vinyl plating, pressing, printing, graphic design, distribution and direct-to-consumer sales.

**A SUPPLY CHAIN OWNED AND
QUALITY-CONTROLLED, BY US,
FOR US AND OUR CUSTOMERS.**

Whew! The acquisitions needed to make this leap have come quickly, and their resulting impact on the audiophile market is big news of late in the trade press.

Leading off, we've acquired *The Mastering Lab*, the Grammy-winning sound engineering and LP lacquer cutting business originally founded by the late *Doug Sax*, formerly based in Ojai, California. The Lab's custom-designed electronics, console and lacquer cutting lathes have been relocated to Salina where they'll be incorporated into a new mastering facility. Our plans are to build the mastering center inside *Quality Record Pressings* — maker of the world's finest-sounding 12" vinyl LPs.

The building of a new mastering center fits well into our remodeling and expansion plans for QRP, because —

— QRP IS GROWING! —

In February we acquired a mother lode of vintage vinyl presses — 13 machines last in use in Chicago in the mid-1990s. Restoration is well under way — the presses have been sandblasted clean, painted and their cylinders and other mechanical parts are under repair. Westar Energy, our utility provider, has upgraded our electrical service to the building, and a larger water chiller unit has been installed to handle the added press capacity.

Teamwork in the QRP packaging department ensures timely product delivery.

Chad with lacquer-cutting lathes from Acoustic Sounds' purchase of The Mastering Lab.

A larger industrial chiller with three times the cooling capacity is delivered to QRP.

WITH THE GRADUAL
ADDITION OF RESTORED
PRESSES, PRODUCTION
AT QUALITY RECORD
— PRESSINGS IS —
expected to double.

Just a few blocks from QRP, the workers with our new *Acoustic Sounds Printing* division are making adjustments to our recently-acquired 4-color offset press and ramping up production. Our chief printer, *Dallas Wyatt*, has more than 30 years of commercial printing experience. The focus at ASP will be on creating LP labels for QRP's use, as well as inserts, catalogs and other promotional materials for *Acoustic Sounds*.

So, like always, there's a flurry of activity going on here. If you visit us — *as many of you already have* — excuse the hammering and sawing and be mindful of forklifts and wet paint in some spots, as we build you a better, higher-quality *audiophile paradise*.

— *David Clouston*

THE BEST OF Decca Classical and RCA/Decca in two exciting reissue series!

— PRESENTS —
from the golden age of classical music

With such resounding critical and customer support for our first RCA Living Stereo reissue series featuring 25 premier-sounding titles – we knew classical music lovers were hungry for more. So here we are: Our Decca Classical SACD Series includes nine Decca titles on Hybrid Stereo SACD. [No LPs for this series!] Our RCA/Decca Living Stereo Series features 12 RCA Europe series titles on both Hybrid Stereo SACD and 33 1/3, 200-gram super-silent vinyl by Quality Record Pressings. SACD copies in these series will not be numbered.

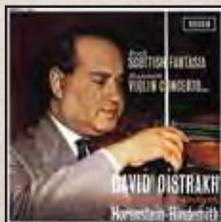

Sign up for either series, or both, by calling 800-716-3553, or email subscriptions@acousticsounds.com. The first 250 RCA/Decca LP copies will be numbered editions and will only be available to series subscribers. All subscribers will enjoy free shipping [in the continental U.S. only] and be charged for their purchases only as they ship.

We've remastered these historic recordings from the original master tapes and the majority were recut by renowned European mastering engineer Willem Makee. Two RCA/Decca titles were recut by Grammy Award-winning engineer Bernie Grundman in Los Angeles. They are Bizet: L'arlesienne Suites 1 And 2 [AAPC/CAPC 2327] and The Royal Ballet Gala Performances [AAPC/CAPC 6065].

These reissued titles are very sought-after titles by collectors, with original vinyl pressings fetching premium prices – if one is lucky enough to find a copy in mint condition. The SACDs have been authored for us by Gus Skinas of the Super Audio Center in Boulder, Colorado. The vinyl is pressed by our own Quality Record Pressings, makers of the world’s finest-sounding LPs. All titles will be plated there by Gary Salstrom.

The LP packaging will be original tip-on jacket facimiles that precisely duplicate the original cover art. These are designed to be the finest editions of these recordings ever reissued.

ANALOGUE PRODUCTIONS PRESENTS RCA VICTOR

How do you improve a classic LP reissue? Audiophiles get ready — The RCA Living Stereo limited edition series from Analogue Productions will show you!

We're bringing you 200-gram LPs cut at 33 1/3 and released on Hybrid SACD, featuring 25 premier-sounding titles from RCA's Living Stereo golden era.

We know you may have heard many, but not all of these titles, as originals or reissues by other labels. We've read the reviews and comments about those LPs. We think that now, all the issues complained about on all those previous records have been addressed.

We've remastered these historic records from the original 3-track master tapes and have had them recut by engineer Ryan Smith at Sterling Sound in New York.

Again, we know how our customers feel. We agree with most of the comments about the prior reissues. We feel that all prior reissues of this series had various shortcomings. And we think you'll be thoroughly pleased when you hear how we've addressed all the issues.

RCA's "golden age" era was more like

a "golden minute" — in a scant period, roughly from 1958 to 1963, the beginning of the stereo era — pure vacuum tube am-

plication helped produce recordings demonstrating unparalleled fidelity and warmth, lifelike presence and mid-band illumination.

These 25 titles are some of the most famous classical recordings — says

Acoustic Sounds founder/owner Chad Kassem, "These are fantastic records — very warm, rich and smooth."

And of course, where to press these gems but our own premier vinyl record pressing plant, Quality Record Pressings, where the best-sounding audiophile LPs in the world are produced. All titles will be plated there by Gary Salstrom.

Would the packaging for this reissue series be anything less than stellar? Look for original tip-on jacket fascimiles that precisely duplicate the original cover art, including the "Living Stereo" logo, LSC numbers and "Shaded Dog" label.

These are designed from the mastering, to the pressing and packaging to be the finest RCA Living Stereo LPs ever reissued.

"...The sound is as it should be: Inviting the listener into the music and entirely constant with (conductor Fritz) Reiner's readings. This transfer bespeaks a confidence in the sound on the master tape without the artificial touch-ups (a brightness) later found in the original Living Stereo pressing and the more pronounced jiggering in the version from Classic Records. ... If ever there were a must-have LP in the recent wave of audiophile reincarnations, this is it. Treat yourself and thank (Chad) Kassem for doing it the justice it deserves."

A HIGHER QUALITY LISTENING EXPERIENCE!

With more than 7,000 offerings available, Acoustic Sounds Super HiRez is popularizing hi-res digital downloads to a rapidly-growing base of discerning music fans. Nationally, 90 percent of consumers polled say sound quality is the most important factor concerning the music they buy. Super HiRez carries mainstream albums from all three major music labels — Sony, Universal and Warner Bros. — plus significant independent labels such as Wilson Audiophile Recordings and Naxos, and also selected individual recording artists.

We offer albums in Direct Stream Digital [DSD] as well as other high-resolution PCM formats, such as FLAC and ALAC.

WMG joins Sony, Universal and several key audiophile labels which joined the Super HiRez roster earlier in 2013-14.

“Our customers asked Acoustic Sounds for hi-res downloads. There was a lot of time and money invested in creating our Super HiRez service,” says Acoustic Sounds founder/CEO Chad Kassem. “The customers have backed up that investment with their music-buying dollars. We’re grateful for their support that has made this addition to our business so successful.”

WHAT IS HIGH RESOLUTION MUSIC?

High Resolution Music is defined as lossless audio capable of reproducing the full spectrum of sound from recordings which have been mastered from better than CD quality [48kHz/20-bit or higher] music sources that represent what the artists, producers and engineers originally intended.

All the products on page 11 are High Resolution Music.

“The packaging is exquisite, from the textured box to the highest quality graphics and paper on cardboard jackets. All is absolutely first-rate as are the pressings. The records coming out of QRP are definitely living up to the pressing plant’s early promise. This kind of drop dead black quiet is precisely what’s required for Jones’s music and QRP delivers it. Kevin Gray’s mastering is equally superb. ... I was surprised how easily and pleasurable it was to go through the whole box numerous times before writing it up. The sonics throughout are superb ...” — Michael Fremer, *AnalogPlanet.com*, January 24, 2013.

Albert King with Stevie Ray Vaughan
IN SESSION 45 RPM

In Session, recorded in 1983, is the only known recording of Albert King and Stevie Ray Vaughan performing together. Its long-overdue commercial release stands as a fitting tribute to the genius of two of the greatest musicians ever to have played the blues on electric guitar.

AAPB 7501-45 | \$55.00 | 200-Gram | Two LPs |

Junior Wells
HOODOO MAN BLUES 45 RPM

One of the all-time great urban blues records and the best-seller in the famed Delmark catalog. *Hoodoo Man Blues* is so full of bravado and snap it'll make you feel tough just listening to it. And at 45 RPM, this now stands as the undisputed definitive version.

AAPB 034-45 | \$55.00 | 200-Gram | Two LPs |

Also available on Hybrid Stereo SACD and HiRez Download

Son House
LEGENDARY FATHER OF FOLK BLUES

"Here on *Father of Folk Blues*, is the first such presentation of a Delta blues musician done by Columbia. The man's picture on the front is mesmerizing, in a word; the white shirt, black string tie, and silver steel guitar just adding to the excitement." - *All Music Guide*

Alfredo Argenta
ESPAÑA

Sonically, this is one of Decca's finest. Recorded in 1956/57, the unprepared listener is swept off his or her feet. To better enjoy this tremendous experience, we would advise the listeners to put their feet up, relax, and listen with rapt attention.

CAPC 2020 SA | \$30.00 | Hybrid Stereo

David Oistrakh
BRUCH: SCOTTISH FANTASIA

Oistrakh's performance here is a complete revelation. Hindemith's concerto has never before blossomed into such rewarding lyricism. Even the orchestral contribution under the composer himself is strikingly passionate.

CAPC 6035 SA | \$30.00 | Hybrid Stereo

Zubin Mehta
MAHLER: SYM. NO. 3 IN D MINOR

Considered to be on of the best Decca recordings; made in March '78 in Royce Hall, U.S.A. by engineers James Lock and Simon Eadon. Mastered by mastering engineer Willem Makkee from the original tapes on a Nuemann VMS 80 lathe.

JOAN *Baez*
DIAMONDS AND RUST IN THE BULLRING

AAPF 080 | \$35.00 | 200-Gram | QUALITY RECORD PRESSINGS

"Impeccably mastered from the original analog tape by Kevin Gray at Cohearent Audio, the 200-gram vinyl was plated and pressed at Quality Record Pressings. This small treasure preserves the essence of what makes Baez such a beloved figure on the world stage." - Music = 4/5; Sonics = 4/5 - Neil Gader, *The Absolute Sound*

Harry Belafonte
BELAFONTE AT CARNEGIE HALL

Belafonte at Carnegie Hall was an anomaly at a time when only comedy albums were recorded outside of the studio environment. Belafonte's mastery in front of an audience was never better displayed than here, a mastery that resulted in him becoming one of the most popular concert draws in history.

AAPF 6006 | \$55.00 | 200-Gram | Two LPs | QUALITY RECORD PRESSINGS

Also available on Hybrid 3-Channel Stereo SACD

Harry Belafonte
BELAFONTE SINGS THE BLUES

A favorite off the recommended list by *The Absolute Sound* magazine, and, as expressed in the liner notes, Harry Belafonte's favorite recording. Belafonte has never before sung on records as he does in this album. He is freer, more earthy, more exultantly identified with his material than ever before.

Otis Redding OTIS BLUE 45 RPM

Otis Redding's third album presents his talent unfettered, his direction clear, and his confidence emboldened, with fully half the songs representing a reach that extended his musical grasp. More than a quarter of this album is given over to Redding's versions of songs by Sam Cooke, his idol, who had died the previous December.

**ROGER WATERS' PORTRAIT OF A DISTRACTED SOCIETY,
AMUSED TO DEATH,
CELEBRATED WITH REMASTERED RELEASE!**

“Even if you have one of the original issue vinyl LPs, the new version of *Amused To Death* on the Analogue Productions label is an essential upgrade to your listening experience. Like *The Division Bell* and *The Endless River* vinyl LPs before it, Analogue Productions and Quality Record Pressings has kept their commitment for quality meticulously high with *Amused To Death*. The record pressing is uniformly excellent...” Paul Powell Jr., *Brain Damage U.K. Pink Floyd News*, August 2015.

2015 EDITIONS FEATURE QRP-PRESSED 200g VINYL, HYBRID MULTI-CHANNEL SACD, DSD & FLAC DOWNLOADS, NEW 5.1 SURROUND REMIX ON BLU-RAY AUDIO, NEW COVER AND GATEFOLD ARTWORK.

An unblinking look at an entertainment-obsessed society, *Amused To Death* addresses issues that have only grown in complexity and urgency over the past two decades. With *Amused To Death*, Roger Waters sounded the alarm about a society increasingly — and unthinkingly — in thrall to its television screens. Twenty-three years later, *Amused To Death* speaks to our present moment in ways that could scarcely have been anticipated two decades ago. In 2015, television is just one option in an endless array of distractions available to us anytime, anywhere, courtesy of our

laptops, tablets and smartphones. With eyes glued to our screens, the dilemmas and injustices of the real world can easily recede from view.

The 2015 2 LP 200-gram vinyl edition of *Amused To Death* features remastered audio completed by longtime Roger Waters / Pink Floyd collaborator and co-producer, James Guthrie, and has been pressed at Quality Record Pressings. The cover and gatefold art has been updated for 2015 by Sean Evans, the creative director of Waters’ 2010-2013 “The Wall Live” tour and movie.

PICTURE DISC ALSO AVAILABLE!

You talk about a title made for multichannel SACD! It's as if they knew 35 years ago that this format would be available. Finally, technology caught up with Pink Floyd. And oh how lucky we all are to still be around to hear this legendary studio recording in its full potential.

Pink Floyd chose Acoustic Sounds and Analogue Productions to handle the exclusive distribution of this monumental SACD and we are honored and thrilled to be a part of EMI's huge Why Pink Floyd...? campaign that includes remastered CDs, Blu-rays, DVDs, LPs, memorabilia box sets and this, the first-ever multichannel presentation of Wish You Were Here. The SACD also of course includes a stunning stereo mix. And as this is a hybrid disc, the record is of course also playable on a standard CD player.

Cut from the original analog masters by Doug Sax, with the exception of *The Doors*, which was made from the best tape copy. Sax and Doors producer/engineer Bruce Botnick went through a meticulous setup to guarantee a positively stunning reissue series.

This is an all-tubes process. These masters were recorded on tube equipment and the tape machine used for transfer for these releases is a tube machine, as is the cutting system. Tubes, baby! A truly authentic reissue project.

FUNNY GIRL

Funny Girl is an unadulterated smash, Composer Jule Styne, at the peak of his brassy powers, custom-fitted the show to its star, Barbra Streisand, and she ran away with it. Streisand's delivery of "People" still sends a chill down the spine, and she completely radiates with the life-force of someone who's a star and knows it.

GOLD RECORDS VOL. 4

ARCA 3921 | \$34.98 | 180-Gram

In this fourth *Gold Edition*, a tried and tested method was used to create a new LP: namely, a compilation of single hits from the years 1961 to 1967. The result was just what fans wanted! Alongside sentimental songs such as “Love Letters,” the tearjerker “Lonely Man” and the sobbing, heartstring tugging ballad “It Hurts Me.”

Cheap Trick
CHEAP TRICK

Cheap Trick proved to a thrilled audience that a band in the late '70s could stay in the limelight over many years without having to reinvent rock 'n' roll. Any band that wanted to survive as an opening act for such top bands as Queen, Kiss and Boston simply had to be either courageous, naive or give a really good show.

WHATEVER AND EVER AMEN

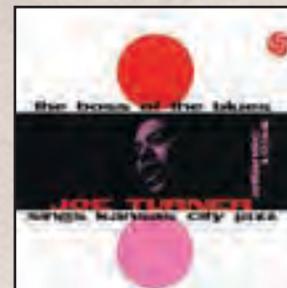

Think of *Ben Folds* as *Billy Joel* minus the Tin Pan Alley heritage and armed with a sweet, wry, slacker ethos. In a guitar-free trio setting, the Chapel Hill smart guy pounds the ivories with gusto while singing a tremendous batch of funny "Kate", poignant "Brick," "Evaporated", pissed-off "Song for the Dumped", and hugely refreshing (all 12 tunes here) songs.

Chris Cornell
EUPHORIA MORNING

Striving for the diversity of the *Beatles*, Cornell has succeeded in making music that breathes the same kind of emotion with a healthy '90s updating. "Follow My Way" and "Can't Change Me" find the former Soundgarden frontman tossing Indian flourishes into the mix while "When I'm Down" is delivered with the kind of élan that says even grunge gods have soul.

NO POI

Na Poi, originally released in 1972, was re-released in 1976. The title track was hugely controversial and was banned by the Nigerian Broadcasting Company on original release. In Yoruba, the expression literally means "things will collide," and in the lyric Fela describes what men and women get up to in bed together in graphic detail.

Singer Lyn Stanley's third studio album *Interludes* is robust and rousing. Stanley has enjoyed critical and commercial success with her first two recordings, *Lost in Romance* and *Potions (from the 50s)*; here, her interpretations on another pass through the Great American Songbook employ vocals that are in turn seductive, emotional, saucy and inviting. She sounds comfortable no matter what the setting, finds jazz critic Scott Yanow.

New York Dolls
TOO MUCH TOO SOON

Judging from the title of their second album recorded in 1974, the NY Dolls understood their place in history perfectly. Punk rock had yet to break, and five cross-dressing, trash-talking rockers from the bowels of the Bowery had no place in the corporate music world.

COMPLETE STUDIO ALBUM COLLECTION

High-quality colored vinyl versions of Queen's 15 studio albums! Half-speed lacquers cut at Abbey Road Studios; mastered by Bob Ludwig using the original master tapes. Includes 108-page hardback book with archival material from Queen's Brian May, Roger Taylor. Sumptuous. Vinyl is how listeners first heard the legendary band Queen as the '70s dawned. A new 18-disc box set, *Queen: The Studio Collection*, features remastered editions of each of the band's albums, including three records — 1974's *Queen II*, 1991's *Innuendo* and 1994's *Made in Heaven* — that have their tracks spread over two LPs.

The Beatles get back to mono in a limited edition 14 LP box set!

180-gram LPs pressed in Germany by Optimal Media.

Newly remastered for vinyl from the analogue tapes by Sean Magee and Steve Berkowitz.

Cut to lacquer on a VMS80 lathe

Exclusive 12" 108-page hardbound book with rare studio photos!

27 #1 HITS remixed (2015) on 2 LPs on 180g heavyweight vinyl.

Gatefold package includes four art cards and a poster of global single sleeves.

The Beatles "1" was originally released in 2000 and quickly became the fastest selling album of all time. Featuring 27 of the band's most significant singles, all of which reached #1 in the US or UK charts, this updated vinyl edition now features brand new stereo mixes by Giles Martin and Sam Okell at Abbey Road Studios. Pressed on 180g heavyweight vinyl, the double LP gatefold package also includes a four postcard set and a fold out poster, faithfully replicated from the original pressings.

What other legendary label has artwork as collectible as the actual records? These long historically famous session photos from Francis Wolff are absolutely gorgeous and make for the perfect supplement to your Blue Note Records collection. From 1939 to 1967, Wolff photographed nearly every Blue Note session. He's as responsible for how we remember the look of John Coltrane as Rudy Van Gelder is for how we remember the sound. While Wolff never considered himself a master photographer, history certainly remembers him as one of the few great jazz photographers. Wolff died in 1971, but many of his thousands of images have been established as classics.

Three years ago, we sparked upon a plan to design a high-resolution portable music player (DAP). For our first DAP, we set ourselves an almost impossible goal. That was, to make it possible, for true music lovers and professional audiophiles, to enjoy the same Hi-Fi listening experience achieved in state of the art home based systems, in a portable body. This means, the circuit design, the device, the system architecture, as well as, the industrial design and processes, must all be reconsidered all. We looked forward to it, as not just portable Hi-Fi equipment, but, as the future of Hi-Fi itself.

CMA800R CURRENT MODE
HEADPHONE AMPLIFIER

The Questyle Audio CMA800i headphone amplifier section follows Questyle's patented "Current Mode Amplification" design used in their flagship headphone amplifier, the Questyle Audio CMA800R, in fact, most of the components used are the same. The ultra low 0.00026% distortion, ultra wide bandwidth, up to 850kHz (+0, -3dB), and Super-current pure Class A architecture enables the Questyle Audio CMA800i's amplification to be unparalleled among all-in-one DAC/amplifier models.

Unlike other DACs that claim DSD support, yet in actuality provide DoP (DSD over PCM), the Questyle Audio CAS192D accepts the DSD bit-stream directly from your computer, bypassing your computer's audio processing and digital volume control as well as the Questyle Audio CAS192D's digital filters, to provide True DSD, the way it was meant to be heard, without requiring expensive difficult to install proprietary connectors.

Questyle Audio's outstanding "Current Mode Amplification" technology (subject to a PCT patent held by and the core technology designed and developed by, Questyle Audio CEO and founder Wang Fengshuo) provides the airiness and musicality of a tube amp while maintaining the speed and accuracy of transistors. In current mode amplification, the signal is amplified by modulating current instead of Voltage. It is widely applied in the high speed communication industry and the video processing industry, but it is Questyle Audio's patented technology as applied to headphone amplifiers.

THE BEST SPENDORS EVER

The new Spendor D7 is nothing short of a breakthrough in loudspeaker design. It features quantum advancements in driver materials and technology, a new ground-breaking Spendor LPZ soft dome tweeter and specialized components purpose built from the ground up to sound better.

Today's top-of-the-line Spendor D7 delivers state-of-the-art transparency, breath-taking dynamics, toe-tapping precision and beautifully timed deep bass. At \$5,995 a pair they offer unbeatable value.

You've never heard a Spendor like this one; the new D7 is quite simply the best speaker we've ever made.

"It has a decent helping of the original mid 1970s BBC magic midrange but with a modern twist. The D7 is easy to drive and truly compatible with valve amplifiers. Undemanding of placement, it has fine stereo and extended powerful bass, sounds upbeat and well balanced, and will drive larger rooms as required. And the build and finish is first rate: what more can one ask?" - HiFi Critic, September 2013

"Among the finest speakers I've heard at any price."
- Sam Tellig, Stereophile Class A Recommended Component, Sept. 2014

"A superb floorstander, one of Spendor's best boxes ever."
- HiFi Choice, Five Star Award Winner, April 2013

"We can't help but marvel at the sound. Spendor's D7's set the standard for speakers at this price."
- What Hi-Fi, October 2013

"The D7 is extremely capable and very neutral, but most importantly it puts the music first."
- HiFi+, December 2014

LYRA *Atlas*

Low Output Cartridge

Introducing the ATLAS, the world’s first asymmetric MC phono cartridge. The Atlas is Lyra’s new flagship. It is also the first time that anyone has made an asymmetrically structured phono cartridge. Why asymmetric? Because, by eliminating the barriers to great sound that are present in every other cartridge today, it confers a number of important performance benefits. Lyra remains the only cartridge manufacturer to mount the cantilever assembly directly into the cartridge body and thereby achieve a seamless, totally rigid connection between cantilever assembly and headshell.

Preamplifier

M PERSM S \$2,195.00

Available in Black and Silver

The Magnum version of the Perseus preamplifier features a host of premium parts and circuit upgrades that are cost prohibitive in the standard versions. This Magnum upgrade package increases the transparency and dynamics of the component along with further improved performance at both frequency extremes.

ROGUE AUDIO RP-5

Preamplifier with Phono

M RP5S \$3,495.00

Available in Black and Silver

Rogue Audio is proud to announce the all new RP-5 Preamplifier. Pure tube, yet extraordinarily high tech, the RP-5 is our first preamplifier based on the groundbreaking new RP-X platform. Utilizing four 12AU7 tubes in a mu-follower configuration, the computer optimized circuitry boasts outstanding sonics as well as industry leading technical specs. The feature rich design includes both a tube based headphone amp and an MM/MC phono with user adjustable gain and loading. The RP-5 also features a VFD display that provides input, volume and L/R balance information. A high quality ten button remote controls volume, balance, on/off, input select, a processor loop, and mute and mono functions.

3-way Loudspeakers

The Heritage Series La Scala II three-way loudspeaker provides a very Klipschorn-like performance with sparkling highs; extreme output, yet smooth midrange; and the unsurpassed low distortion bass response of the patented Klipsch folded-horn woofer. Utilizing the same horn-loaded drivers used in the Klipschorn and Belle Klipsch, the La Scala II is highly efficient and can produce high volumes with very little power and undetectable distortion.

KLIPSCH *Klipschorn*

3-way Loudspeakers

The original Klipschorn three-way loudspeaker, invented by founder and audio pioneer Paul W. Klipsch, has a unique musical truthfulness that has never been equaled. Commonly called a corner-horn speaker, the remarkably uncommon Klipschorn includes a highly efficient horn-loaded tweeter and midrange compression driver. Its patented folded-horn woofer delivers the low frequencies. As the only speaker in the world to be in continuous production for 60 years, the Klipschorn has remained relatively unchanged since its inception.

STIRLING BROADCAST

ls3/5a v2

Available in Ash, Ebony, Maple Burl or Rosewood.

Designed by Stirling Broadcast to meet the exacting requirements of the BBC LS3/5a specification. This version uses the new Stirling SB4424 + SB4428 drivers, and a very hi-grade 'SuperSpec' crossover, all housed in thin-walled 'Reference' matched veneer cabinets. The cabinets feature 9-mm birch plywood construction, removable veneered rear panel, fitted with double layers of bituminous pads. These cabinets are modelled after the famous LS3/5a serial number 001/002 pair featured in Hi-Fi News and Record Review.

K V2 P \$1,995.00 (Pair)

STIRLING BROADCAST

sb-88

Available in Cherry, Ebony, Maple Burl, Rosewood or Zebrano

Similar to the LS3/6 BUT this new model has a slightly smaller cabinet (4.7" shorter and 1.2" narrower). The SB-88 has no "super-tweeter" but otherwise, it is the same as LS3/6 - and the sound is very special. What this classic 8" 2-way design gives up in transparency, it more than makes up for with character and body. Destined to put Stirling Broadcast on the map as a top builder for the designs of Mr. Derek Hughes. A recommended best buy!

STIRLING BROADCAST

bbc ls3/6 Reference

Available in Cherry, Ebony, Maple Burl, Rosewood or Zebrano

The Stirling Broadcast LS3/6 takes advantage of the greater consistency and linearity of modern drive units compared to when the LS3/6 was originally designed. A very high quality crossover is used to mesh custom made drive units, including a super-tweeter, into thin-wall, birch plywood (9mm ply) cabinets with double thickness rubber damping pads and screw-on, removable front and rear panels, as per the BBC "lossy" cabinet design ideal, as also seen in the Stirling version of the LS3/5a.

Au24 "E" Speaker Cable

5 Meter with Spades

There is a common misconception that loud-speaker cable must be large in diameter and have a low DC resistance in order to provide good bass response. So while visual comparison to other more massively-constructed speaker cables may lead you to believe the Audience Au24 will sound "lean" or "thin" once auditioned it will be obvious that aesthetics do not mean everything.

Pressed at Quality Record Pressings and Out Of Print!!

Tea for the Tillerman

CAT STEVENS

The Reviews Are In!

"Depth is pronounced and because of both the blackness of the backdrop and the precision of both the state of the art plating and the technological breakthroughs achieved in the retro-fitted presses, the resolution of low level detail reveals a host of details that are either buried or glossed over on the other versions I've heard and own...*Tea For The Tillerman* is a great choice for an inaugural album to launch a new pressing plant in my opinion, and if this release is any indication of what we can expect from Chad Kassem's new venture, we're in for some great vinyl!"

— Michael Fremer, Editor, *musicangle.com*,
Senior Contributing Editor, *Stereophile*

"...Like the glossy gatefold covers used in their deluxe Impulse 45 RPM series, the cover reproduction here is absolutely top-notch...The vinyl itself arrived perfectly clean and flat, and played with nary a pop or tic throughout...The pressing is of extremely high quality."

— *My Vinyl Review*, August 29, 2011

When word got out that we were beginning a pressing plant, customers began to call with questions. And the most common and full-of-anticipation question was inevitably: What will be the first title that you press? Well, we couldn't possibly imagine hitting a bigger home run than to open Quality Record Pressings (QRP) with one of the all-time most classic audiophile records, Cat Stevens' *Tea for the Tillerman* from 1970.

There are so many things perfect about this release. First and foremost, it's a masterpiece of a record. It's that rare record that couples breathtaking sound with hit after hit after hit. In fact, to list the hits would be to list the entire song list. We couldn't pick a better vehicle for which to show off what we're so confident will be the highest quality records ever pressed.

But here's something else that's cool: We scored the absolute original analog masters, and the tapes were in impeccable condition. It took an unbelievable amount of digging and research - and luck - to get this project done to the standards of Analogue Productions. But, wow, was it ever worth it! The tapes were last used in December 1999 when Ted Jensen at Sterling, along

with producer Paul Samwell-Smith, remastered the Cat Stevens catalog for CD.

"I think we've gotten something quite a bit better than what was originally issued," Mastering Engineer George Marino says. "I think this version is much more representative of what was on the tape. And that's not a criticism of what was originally done."

"A great record. A classic," he says. "And those tapes were in excellent, excellent condition. Musically, I think we've got something that sounds richer and more natural. It sounds more correct. I had to do very, very little to the tape regarding EQ processing or anything."

To package this reissue, we've decided to do a facsimile of the original British Island gatefold jacket rather than the non-gatefold U.S. version. This British jacket also has a textured paper stock on the inside and is glossy on the outside. Additionally, we're using the original pink Island label.

So there you have it. Quality Record Pressings is off and pressing in a big, big way!

BY WEB: Add the items to your "cart" and complete the order form.

BY PHONE: To ensure fast and efficient service, please have the item numbers ready. We recommend that you write out the items you would like to purchase with the complete item numbers. Please be sure your order is complete at the time you place it, to ensure it goes out the same day. We send orders to the warehouse as soon as they are placed, therefore, no changes can be made or items added. Have your Mastercard, Visa, Discover or American Express card handy. Then call us toll-free at 1-800-716-3553 (U.S.-only).

BY MAIL: Please write out the items you would like to purchase with the complete item numbers, along with your phone number and billing information. We will accept payment by bank draft (no Eurocheques), money order, personal check, Mastercard, Visa, Discover or American Express (we must have the credit card expiration date). Orders held until check is cleared by your bank.

BY FAX: Please write out the items you would like to purchase with the complete item numbers, along with your phone number and billing information, just as if you were mailing it, then fax it to (785) 825-0156, 24 hours a day. Your fax order is considered an original order, please do not send a confirmation by mail. We cannot be responsible for duplicate orders.

SHIPPING AND HANDLING: Customers who refuse shipments will be charged shipping charges to and from Acoustic Sounds.

International, Alaska, Hawaii and Puerto Rico are not eligible for any Acoustic Sounds shipping promotions. All such shipments will be charged based on actual weight.

International duties and taxes are not our responsibility. Should Acoustic Sounds be billed for these unpaid duties and/or taxes, we will then directly charge your account.

CANADA: \$50 MINIMUM PER ORDER. Charges for all shipping methods are based on actual weight. Brokerage fees are NOT included in UPS ground shipments. Duties/taxes to be paid by receiver.

OVERSEAS: \$50 MINIMUM PER ORDER. We recommend DHL as it is faster and safer than airmail, and we are able to track your package through DHL. Shipping overseas through USPS can take up to four weeks. In the event that an order is lost via airmail, we cannot start a claim for 75 days with an additional four weeks for processing.

We will ship according to your preference, but if you do not specify a shipping method, we will choose the method we feel is best as outlined in the above paragraph. Customers who refuse shipments will be charged shipping charges to and from Acoustic Sounds.

OVERSEAS SHIPPING TIME: DHL/UPS Expedited: 4 to 10 business days. DHL/FedEx/UPS Express: 1 to 3 business days. Airmail: 7 to 14 business days. Shipping time will vary according to holidays.

SPECIALS/SALES: Special discounts on quantity purchases, equipment and sales may not display pricing and or shipping correctly on the online shopping cart. These will be calculated on the final invoice.

BACKORDERS: We try to keep a current supply of everything that is listed in the catalog. At times, however, some items may be temporarily out of stock. By checking the Backorder box on the order form, you may put the item(s) on backorder. We will ship in-stock items and place the out-of-stock item(s) on backorder. Acoustic Sounds will not charge shipping and handling for backordered items, but all backorders will be sent by the method of Acoustic Sounds' choosing. Credit cards will not be charged until the item ships.

If you request to put an item on backorder that we know will not be available within 30 days, it will be kept on backorder by us and shipped as soon as it arrives. You do not need to reorder that item again.

BACKORDERS ARE NOT AVAILABLE ON INTERNATIONAL, CANADIAN OR NON-CONTINENTAL U.S. ORDERS.

PREORDERS: Preordered albums are those that have been announced but are not yet available from the manufacturer. You will be charged shipping and handling for preordered items with the same provisions as apply to all regular in-stock items. If you do not wish to be charged this extra shipping, request "ship in full" and the whole order will be shipped together once the preordered item(s) arrive.

RETURNS: Acoustic Sounds, Inc. offers, as part of our industry-leading service, the finest, most durable packaging of any music mail-order business. In short, we know how to package and ship music and equipment so that it will arrive damage-free. But of course there are times when manufacturing defects exist that are not visible or audible until the packaging is opened. In the event that you are not satisfied with the physical or audible condition of your Acoustic Sounds purchase, please take note of our following return policies:

Within 30 days of purchase, we will accept returns of any physically or audibly defective or damaged item. We do not guarantee that you will like the music or recording quality of a LP or CD, and personal taste does not qualify as a reason for return. In lieu of a refund, we will instead ship to our customer a replacement copy of the same item that was returned. The customer is responsible for the shipping costs to return the defective item to Acoustic Sounds. Acoustic Sounds will in turn pay the shipping costs to replace the item to the customer.

In the case of international orders, Acoustic Sounds will only ship a replacement item as part of a \$50-minimum subsequent order.

In order to return an item, the customer must obtain a Return Merchandise Authorization Number (RMA#) from Acoustic

Sounds by calling 785-825-8609. A RMA# must be requested by the customer by no later than 30 days from the time that they purchased the item in question. If after 30 days from purchase no RMA# has been requested, the sale of that item becomes final.

Once a RMA# has been issued, the customer is to write that number on the outside of the box being returned to Acoustic Sounds. In the case of a piece of equipment or hardware, DO NOT write on the product box or container. You can write the RMA# on a piece of paper and tape that to the product box.

Each return must include a written description of exactly what is defective and why the item is being returned. Please be specific. For example, if an LP is being returned due to inordinate surface noise, describe exactly where in the record (side, track, minute, second) the defect occurs.

When returning a defective or damaged item to Acoustic Sounds, it is recommended that the customer ship using either FedEx or UPS so as to be able to both insure and track their shipment. Shipments can be made to Acoustic Sounds at 518 N 10th Street, Salina, KS 67401. The customer assumes all responsibility for any packages that are lost, stolen or damaged in return transit.

All returns must be received by Acoustic Sounds no later than 15 days from the time the RMA# was issued. If after 15 days the product is not returned to Acoustic Sounds, that RMA# becomes invalid.
